

# Algotec Quality Policy

(QM-10, Revision A)

Algotec Research and Development Limited is committed to customer satisfaction through continual improvement of its products and services by way of a fully implemented and maintained Quality Management System.

The organization is committed to meeting statutory and regulatory requirements and to maintaining the effectiveness of its Quality Management System.

Regular Internal Audits and Management Review takes place in accordance with documented procedures and corrective/preventive action will take place should any Quality Management System non-conformance arise.

Quality Management is an active and ongoing process embedded within the day to day activities of all employees.
